

Community Speed Watch Bulletin

Road safety has featured heavily in my Police & Crime Plan for 2017-21, which is a reflection of how important this issue is to local people. CSW volunteers not only help to keep Dorset roads safe, but greatly improve the quality of life for residents. Their efforts have been extremely worthwhile and each of our csw volunteers should be commended for their role in reducing excessive and inappropriate speed across the county. *Martyn Underhill*

IMPORTANT INFORMATION

You are all aware of the changes to the recording procedure implemented last year. Your excel spreadsheets have up until now been coming to the csw administrators to check, allowing them to upload them to the SWAN database that then produces the letters.

From 1st February the email address you use is changing. From the 1st February please send your spreadsheets to:

csw@devonandcornwall.pnn.police.uk

Your spreadsheet will upload automatically to the database. Please ensure that you follow all the previous instructions with regard to completing the spreadsheet. If you receive a message back that indicates the spreadsheet has failed to upload you can at that point forward it back to csw@dorset.pnn.police.uk and we will investigate the problem, and let you know so this doesn't reoccur.

2017 Best Year for Community Speed Watch in Dorset

You may be interested in seeing the final figures for last year compared to previous years. CSW in Dorset continues to grow with 9 new teams set up in 2017.
